The present volume is a small contribution to the study of the Swedish liturgy, and gives a brief survey of the development of the office of the mass in Sweden from pre-reformation times until to-day. Five mass offices are reproduced. The first is a transcription of the medieval Latin mass, which has been done in some detail for the purpose of illustrating the fact that the modern mass has preserved the form, and in many respects the Spirit, of the medieval rite. English translations of the remaining four vernacular masses are set down alongside the Swedish originals. The variables are supplied for the Easter festival. In the case of John iii s Red Book, a few copies of which survive, the Latin text is here reprinted for the first time since the sixteenth century. In every case the text of the mass has been so arranged as to indicate the divisions into which the mass has been cast during the last millennium. These divisions may be tabulated...

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
