The science of Geography is one of increasing interest and importance. It is an essential branch of elementary education, and is calculated to awaken and cherish that spirit of curiosity and inquiry which is so natural to the juvenile mind, and which under due regulation, often leads to the noblest and happiest results. Nor is it an unworthy theme for mature and cultivated minds, nor beneath the attention of men of learning and taste, nor is it important merely as a source of mental diversion and entertainment; on the contrary it opens a wide field for improving and profitable contemplation, is in many respects connected with the general circle of the sciences, and contributes more than is commonly supposed, to the formation of the scholar, the man of...

Reviews

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
